

" *What is a puzzle toy?*

A puzzle or interactive toy is a type of toy that holds and dispenses dry food a little bit at a time. The dog extracts the food by rolling and nosing the toy around so the food spills out.

Our favorites are :-

Tricky treat ball

Amaze-a-ball

Molecube ball

Twist and Treat

All are available at PETEDGE.COM or JBPET.COM

Instructions for feeding meals from puzzle toys

Simply pour the ration of dry kibble into the puzzle toy and serve.

If your puppy doesn't show interest in the puzzle toy at first containing his kibble, spice it up by adding a couple of dry treats.

Only put dry or semi-moist foodstuffs in these puzzle toys.

More benefits to using chew toys.

1/ Dog burns energy in a calm non-aerobic way

2/ Teaches dog to problem solve

3 /Providing the dog with chewtoys/puzzle toys upon your departure keeps him busy and can effectively help prevent the development of separation anxiety

4/ Dog learns to love being in his crate / confinement area if he has chew toys in there to occupy his time.

5/ Frees up your time. A dog busy with toys isn't busy demanding attention from you.

6/ Helps to teach your dog to settle down and relax.

7/ Chewing is a normal and favorite doggie pastime.

8/Chewing on chewtoys keeps their gums and teeth in shape

Kongs+ Hollow bones cost between \$4-\$13

Puzzle toys cost \$5-\$15

A tired, quiet, well behaved chew toy addicted puppy- priceless
